135. Any Volunteer, whether in uniform or not in uniform, who deliberately and wilfully uses language (either orally or in writing) towards an Officer, in his capacity as an Officer, calculated to bring such Officer into contempt or disrepute as an Officer, shall be deemed to have contravened a regulation made by the Governor, and may be dealt with under Section 30 of the Colonial Forces Act.

C.O. is alone Responsible for Efficiency of Corps.

136. Volunteers should remember that it is the Commanding Officer, and not the individual Volunteer, who is responsible to Government for the efficiency of his Corps; it is, therefore, the duty of those under his command to render him due support and assistance in every respect.

If it can be proved against any Volunteer that he is working contrary to the spirit of this regulation, his Commanding Officer will, if an Officer, report him to the Colonial Military Secretary, and if a member other than an Officer, deal with the case as a breach of discipline under paragraph 122.

Rules of Procedure when Cases are Brought before a Commanding Officer.

137. In dealing with cases brought before them, Commanding Officers are to be guided by the following paragraphs relative thereto :—

1. The case of an Officer charged with committing any offence may be referred to a Court of Enquiry, and need not, unless the Officer requires it, be formally investigated before his Commanding Officer. In the case of a Volunteer, however, the charge or crime must be investigated by the Commanding Officer himself, or by an Officer to whom he has delegated the conduct of the investigation.
2. This duty of investigation by the Commanding Officer requires deliberation, and the exercise of temper and judgment, in the interests alike of discipline and of justice to the individual charged. The investigation should, as a rule, take place in the Orderly Room, and must be conducted in the presence of the person charged.
3. After the nature of the offence has been made known to the individual, the witnesses present on the spot, who depose to the facts for which he has been brought up, are examined.
4. The Commanding Officer, after hearing what is urged against the prisoner, will, if he is of opinion that no offence at all, or no offence requiring notice, has been made out, at once dismiss the charge. Otherwise he must ask the prisoner what he has to say in his defence, and whether he has any witnesses to call, and will give him full opportunity both of making a statement and of supporting it by evidence.

If Accused fails to Attend, the Offence considered Proved.

5. If no investigation can be held owing to the non-attendance of the accused Volunteer, the Commanding Officer will enquire into the cause of absence, and should it be conclusive that non-attendance was the result of wilful disregard, or neglect, of the order to attend, the case shall be dealt with as having been proved against the prisoner.

Powers of Commanding Officers on Military Service, etc., as to Summary Punishment.

138. The powers of Summary Punishment vested in Commanding Officers, in dealing with cases brought before them while Volunteers are on Military Service at Camps of Exercise or Instruction, as prescribed under Part II of the Colonial Forces Act and Regulations framed thereunder, are as follows :—

If the Commanding Officer is not below the rank of Major, then *vide* paragraphs (*a*), (*b*), (*d*), and (*e*), of Sub-section I of Section 47 of the Act.

If below the rank of Major, then paragraphs (*d*) and (*e*) of Sub-section I of Section 47 of the Act.

If the Commanding Officer is of opinion that the charge against a prisoner is too serious to be dealt with under his summary jurisdiction, he will report the matter to superior authority in the manner prescribed in paragraph 44 of the Regulations under Part II of the Colonial Forces Act.

C.O. is Responsible for Efficiency of Corps, and that Government Property is Accounted for.

139. Commanding Officers are held responsible :—

(*a*) For the efficiency of their respective Corps, and that a muster roll as required under Section XVII of the Colonial Forces Act is correctly kept.

(*b*) That all Government and Corps' property is correctly and properly kept and forthcoming, or otherwise satisfactorily accounted for, at any time that it is required to be inspected, or returned into store.

(*c*) That all Government and Corps' property issued to members leaving it are returned in a proper and serviceable condition (fair wear and tear only excepted).

(*d*) That all Corps books are neatly and correctly kept up to date, and that these Regulations are strictly enforced.

Duties of Battery Commanders, Captains of Batteries and Companies and Lieutenants.

140. Battery Commanders, Captains of Batteries and Companies and Subaltern Officers are not only to keep correct nominal rolls, with addresses, number of the carbine, and other information regarding Government property in possession of the men of their respective Batteries, Companies, sections or half companies, but to assist the Officer Commanding in maintaining discipline and good order.

Quartermaster to Keep Correct Records of all Government and Corps Property.

141. The Quartermasters are specially charged with the care of all articles of Government and Corps property in store, as well as the keeping of correct records of all receipts into or issues from his store. Their other duties are indicated by the examination they are required to pass.

143. No salutes will be fired without proper authority having been previously obtained for such salute, through the Colonial Military Secretary. Application must also be made for permission to take part in any Guard of Honour, public procession or ceremony.

This declaration will be forwarded to the Commandant-General, Cape Colonial Forces, through the usual channel of correspondence in the case of an Officer who is still serving, and direct in the case of one who has retired. The Decoration will be replaced, on payment, if the explanation as to the loss is considered satisfactory.

The first minute is to follow on the page where the original letter or memorandum ends, and the person who affixes it will mark the original letter or subject matter No. 1, and his own minute thereon No. 2 (in red ink when possible). Each succeeding minute is to follow immediately that which by date precedes it, and will in like manner be numbered in sequence. A fresh half-sheet is to be added when required, for the commencement or continuation of a minute, and on no account is such commencement or continuation to be made on vacant spaces under previous minutes or in the margin.

Definition of a Court of Enquiry.

152. A Court of Enquiry is not a judicial body. It has no power to administer an oath. It is to be considered as a Board, of which the Governor, the Commandant-General, or Colonial Military Secretary may make use of to assist them in arriving at a correct conclusion on any subject into which it may be expedient for them to institute an enquiry.

Court Ordered by Commanding Officer.

153. The Commanding Officer of a Corps may assemble a Court of Enquiry, composed of Officers, to enquire into matters relative to his Corps.

Duties of a Court.

154. The duties of a Court of Enquiry will depend upon the instructions which the convening authority may think proper to give. It may either be employed merely in collecting and arranging evidence, or it may, in addition, be directed to give an opinion as to the facts established by that evidence; but it has no power to pronounce any judgment as to the course to be taken by the convening authority in dealing with those facts.

Matters to be Investigated to be clearly Explained in Instructions to Court.

155. When circumstances connected with the conduct of an individual are submitted for investigation by a Court of Enquiry, the instructions for the guidance of the Court must be sufficiently specific as regards matter, names, dates, and places, to convey clearly to the Court the nature of the subject into which it is appointed to enquire; and also to enable the person, whose conduct is called into question, to know what he has to answer to.

Open or Closed Court at Option of Convening Officer.

156. It will rest with the convening authority to decide whether the Court be open or closed.

Evidence to be Recorded as Given.

157. All evidence taken by a Court of Enquiry will be recorded as nearly as possible in the words of the witness and in the order in which it its received.

Proceedings to be Signed by President and Members, and sent to Convening Officer.

158. The proceedings, when closed, will be signed by the President and Members, and be forwarded by the former to the convening authority.

A Court may Reassemble and Take Evidence.

159. A Court of Enquiry may be reassembled as often as the Superior Authority may deem necessary, and on every occasion of its meeting it is competent to receive and record new evidence.

Board of Officers.

160. Boards of Officers may be appointed for any purpose unconnected with discipline, such as to report upon clothing, arms, equipment, or to conduct examinations.

Penalty on Conviction of any Person making away with Government or Corps Property.

Refusing to give up Government Property. Search for Property on Premises can be Made. Suspected of leaving District, Warrant for Arrest can be Issued.

162. Where any person neglects or refuses on demand made as hereinafter mentioned to deliver up, or return into store if required, any property (whether arms, clothing, appointments, ammunition, or public stores), which is public property or the property of a Volunteer Corps, and has been issued to such person or is in his possession or keeping as an Officer or Volunteer, any Magistrate may, upon reasonable ground being shown for a suspicion that the property is to be found on any premises, issue a warrant under his hand empowering the person therein named to enter upon such premises and search for the property, and the person so empowered may enter and search accordingly, and shall seize such property, if found, and remove the same with all convenient speed to such place as may be directed by the Commanding Officer, Officer, person, or Adjutant who made the demand. Or if the Commanding Officer or other Officer of a Corps have reasonable grounds for believing that such Officer or Volunteer is leaving or has left the District without having returned, or is taking with him without permission, any public property, or the property of a Volunteer Corps, that has been issued to such person or in his possession or keeping, any Magistrate may on the sworn affidavit of such Officer issue a warrant for the arrest of such person, and such person shall, on conviction, be liable to the penalties provided for in paragraph 162.

Penalty may be Enforced notwithstanding Seizure

163. Notwithstanding any such seizure and removal, the same penalty may be enforced against any person, and the value of any such property may be recovered from the person neglecting or refusing as aforesaid.

Jurisdiction by any Magistrate.

164. The jurisdiction under this Section may be exercised by any Magistrate who has jurisdiction with respect to the recovery of a penalty.

Persons who can Make the Demand.

165. A demand may be made by the following persons, viz.:

1. In any case by the Prime Minister, Commandant-General, or Colonial Military Secretary, or any person authorised in writing by either of them.
2. In the case of any Volunteer and any Officer of inferior rank to the person making the demand, by the Commanding Officer or Adjutant of the Volunteer Corps to which such property belongs, or to which such Volunteer or Officer belongs.

Manner of Delivery of a Demand. Published in Orderly Room or in Notices.

166. The demand may be made by the delivery of a written notice to the person upon whom the demand is made, or by leaving the same at his usual or last known place of abode, or, if no such abode is known, by affixing the same at the Orderly Room of the Corps to which he belongs or belonged, or by publication in orders where notices relating to such Corps are usually published.

Penalty for Buying Government or Corps Property from a Volunteer.

167. If any person knowingly buys or takes in exchange from any Volunteer, or any person acting on his behalf, or solicits or entices any Volunteer to sell, or knowingly assists or acts for any Volunteer in selling, or has in his possession or keeping, without satisfactorily accounting for, any arms, clothing, or appointments, being public property, or property of any Volunteer Corps, or any public stores or ammunition issued for the use of any such Corps, he shall, on the first commission by him of any such offence, be liable to a penalty not exceeding ten pounds, and shall on a second and every other subsequent commission by him of any such offence, and on being convicted thereof in the like course or proceeding as that in which any such penalty is recoverable, be liable to a penalty not exceeding ten pounds, or less than five pounds.

Pawning Defined.

168. The paragraphs which relate to the wrongful buying and selling of any property (whether arms, clothing, appointments, ammunition, or public stores), which is public property or the property of a Corps, shall extend to the pawning and taking in pawn of such property, and be construed as if the words "buy," "sell," and "selling," included "take in pawn," "pawn," and "pawning" respectively.

Commanding Officer can Seize Arms, etc., to whom they were not Issued.

169. It shall be lawful for the Commanding Officer of any Corps to take possession of, or cause to be taken possession of, any rifle or other Government or Corps property that he may find, or ascertain, is in the possession of any person or persons other than the Volunteer to whom it was issued.

171. If any person wilfully commits any damage to any butt or target belonging to or lawfully used by any Volunteer Corps or without the leave of the Commanding Officer of the Corps, searches for bullets in or otherwise disturbs the soil forming such butt or target, he shall for every such offence be liable, on the prosecution of the Commanding Officer, to a penalty not exceeding five pounds.

Money Recovered for Loss of Government Property to be Sent to the Accounting Officer.

172. All money recovered by the Commanding Officer as being the actual value of Government property which has been wrongfully sold, lost, pawned, destroyed, or damaged, shall at once be forwarded by him to the Principal Paymaster, Cape Colonial Forces, through the Colonial Military Secretary.

All Government Property to be Delivered up on Disbandment of Corps.

173. Upon the disbanding of any Corps, the Volunteers who previous to such disbanding had served in the said Corps, shall forthwith deliver up, as they shall be required, all arms, accoutrements, and clothing, not their own individual property, and such disbanded Volunteers shall be held amenable to these Regulations until such arms, accoutrements, and clothing have been recovered from them.

Penalty for Refusing to Deliver up Arms when Corps is Disbanded.

174. If any member of a Corps disbanded by the Governor shall refuse or neglect to give up to such person as the Governor may direct, any article supplied to him at the public expense as a member of the Volunteer Force, he shall be liable to pay a sum of money equal to double the cost price of such article, which may be recovered from him with costs in the usual manner before the Resident Magistrate of the District.

Pay.

175. Pay, which will consist of Ordinary, Special, Camp, Specialists' Band, and Recruits' Allowances, will be granted in lieu of Capitation Grant, consequent upon obtaining the Annual Certificate, and subject to the conditions hereafter mentioned in paragraphs Nos. 179 and 182 and the Clothing Regulations.

175A. Pay will be issued to each member of the Corps upon his obtaining the Annual Certificate *pro rata* according to the ranks held by him during the year ending 30th April.

175B. The pay of members who have received promotion during the year will be calculated at the higher rate from the actual date on which such promotion was approved.

175C. In cases where an individual has been a recruit during a portion of the year, a proportion of such annual pay will be issued on the same basis as the foregoing, and calculated from the date on which he was promoted to the second class, provided always, that in no case shall payment be made in excess of the authorised establishment of the Corps.

175D. When either Corps or portion of either Corps has been called out for Active Service, men belonging to that portion so called out shall be entitled to the Ordinary, Special, and Specialist pay, or proportion of same, without the necessity of obtaining the Annual Certificate; and men belonging to that portion which is not called out, or men who have been placed on the Non-Active List, shall be entitled to pay in accordance with the Regulations, should circumstances, approved by the Commandant-General, prevent any of the compulsory parades being held; but members will, however, be liable to the usual fines for non-attendance should any such parades be ordered.

175E. In case a member of the Corps should become deceased, the pay actually earned by him during the year shall be handed over to the Master of the Supreme Court, for payment to the next-of-kin of such deceased member, and no Annual Certificate will be necessary.

Registration and Horse Hire Allowance.

183. A registration allowance of £2 10s. per horse per annum, and a horse hire allowance of 10s. per horse for each occasion, will be paid on the production of a certificate signed by the Officer Commanding (Prince Alfred's Own) Cape Field Artillery, stating that the conditions mentioned in paragraphs 94 and 95 have been fulfilled. (For form of certificate see Appendix IIIG.)

Mode of Recovering Fines and Penalties.

184. The mode of recovering Fines and Penalties will be as follows:—

(*a*) Those from non-attendance at Compulsory Parades, loss of, or damage to clothing, arms, equipment, etc., or inflicted under Part II of the Colonial Forces Act, shall be deducted from the total amount which a member has earned during the year.

(*b*) In the event of a member earning no pay, either through failure to obtain Certificate, or through quitting the Corps before the end of the Volunteer Year, only those fines inflicted for loss of or damage to arms, clothing, equipment, etc., as also those inflicted under Part II of the Colonial Forces Act, will be recoverable from him. For procedure see next paragraph.

(*c*) In the event of a member earning pay, and should the total amount of stoppages and fines inflicted for any cause exceed the amount of his pay, proceedings will be taken against him under paragraph 186 to recover the balance, unless he voluntarily pays the amount due.

Mode of Recovering Fines and Penalties.

185. All fines and penalties which the Commandant-General and a Commanding Officer of a Corps are empowered to inflict under these regulations, as well as Part II of the Colonial Forces Act, shall, except as provided in paragraph 185A, etc., be recovered as follows:—

In case of non-payment thereof within fourteen days after such fine or penalty shall have been inflicted, the same shall, with the costs thereof, be levied by warrant of distress, and shall be raised by the sale of goods and chattels of the Volunteer liable for such fine or penalty, and such warrant may be addressed to any person whom the Commanding Officer for the time being may empower and appoint. Nothing herein, however, shall prevent a Commanding Officer from proceeding against a Volunteer in the ordinary way before the Resident Magistrate, instead of by his own warrant, if he shall so see fit. Any penalties incurred under these Regulations, or in the event of a return of *nulla bona* in the case of a warrant, shall be recovered in the usual way before the Resident Magistrate.

Pay Lists.

186. As soon as the Commanding Officer has received the Annual Certificates, he will at once cause a requisition to be submitted for an advance of money to cover the probable pay of all members. Pay lists will be at once prepared, and as soon as the cash has been received, accounts will be settled with all ranks, each member's signature being obtained on the Pay List for his full pay. When completed, the Pay Lists and all balance of cash will be sent to the Principal Paymaster, Cape Colonial Forces, through the Colonial Military Secretary.

APPENDIX V.

INSTRUCTIONS FOR PRACTICE OF FIELD BATTERIES OVER LAND RANGES.

Preliminary training.

1. Preliminary Training should be as complete as possible before proceeding to practice. When once men have learnt the standing gun drill as recruits, all future gun drill parades should be conducted with some definite object in view, and everything should be carried out as if for service practice.

The day of practice is not the time to teach duties, the whole of which should have been thoroughly learnt on drill parades. The whole system of ranging and fire discipline should be exercised as a drill on every possible occasion, as well as the method laid down for the supply of ammunition on service.

Training for fuze setters.

2. A proportion of men in each sub-division should be specially trained and examined in fuze-setting. A fuze will be considered incorrectly set if the graduation ordered is not exactly in line with the arrow, or setting mark, on the body.

Gun-layers.

3. Gun-layers and all Sergeants should be periodically tested in laying at service objects and at service ranges Laying at steeples, chimneys, telegraph poles &c. should not be allowed. They should be frequently examined by an Officer and worked against time.

They should remember that the gun must be layed for elevation on the ground line and that the same accuracy of direction is not so extended to effect when firing at broad formations of troops, long line of shelter trench, &c. (except for ranging shots), as at a narrow target, and not lose time in trying to obtain it when firing at the former targets.

Elevation is, however, all important, when everything must give place to rapidity. Each alteration in elevation must be promptly followed up by all layers as the order passes down the battery without waiting for executive orders from the section commanders, whether guns are loaded or not. When a gun has been laid, a very slight adjustment is necessary after loading is completed. Deflection is always given on the side to which it is wished to throw the shell.

It must be very clearly explained to the layer that corrections of deflection are not his business and that his duty consists in setting the sight exactly as ordered.

All men must be taught to lay for direction from the end of the handspike, so that after the first round, the handspike number can obtain the line. This is of great assistance to the gun-layer, and also an almost certain safeguard against laying on the wrong target.

Casualties.

4. Casualties should be frequently practised at drill. It should be thoroughly understood who is to take up the duties of any Officer or No. 1. Casualties among gun numbers should be filled up from the reserve numbers. The Captain of a battery is responsible for the replacement of casualties to men, horses and material—men sent up to replace casualties should report themselves to the section commander, who should order such changes of duties in their detachments as they consider necessary. When firing is continuous the layer should be changed after about half an hour.

Service practice.

5. Each series should have a definite object known to all, and, at its conclusion, any faults that have occurred should be pointed out.

Targets should be so arranged that concentration and distribution of fire may be practised.

Series should be carried out on the following principles :—

I. To range and find length of fuze.

II. Series with a time limit.

III. Series with an ammunition limit.

I. The mode of proceedings will be as follows :—

1. The Battery Commander will open fire with percussion shrapnel as soon as the short bracket has been found, he orders three lengths of fuze, that for the section next him being the length of fuze shown in the range table opposite the lower elevation of the short bracket, the lengths of fuze for the other sections being less by one and two graduations of the fuze scale respectively. The verifying of the elevation is then completed with the guns already loaded (or reloaded by order of the Battery Commander) with percussion shell.

As soon as the elevation is verified, and guns are loaded with time shrapnel, the order is given "Section salvoes, two seconds." If the fuze is bracketed i.e. if both shells of one pair burst on graze and both shell of another pair in the air, "Battery fire" is ordered with the length of fuze which gave burst in air.

If the shells of a pair burst, one in the air and one on graze, "Battery fire" is ordered with fuzes at that length. In both cases subsequent alterations in the length of fuze may be made during its progress.

Should the fuze not be bracketed in the first echelon of fuzes, the process must be repeated, longer or shorter lengths being ordered accordingly as the shells of the first echelon of fuzes burst in the air or on graze.

II. When fixing a time limit, a Battery Commander must consider the amount of ammunition he wishes to expend, roughly, he may calculate on three to four rounds a minute.

III. In this series, although the limit is the amount of ammunition, there is no reason why times should not be taken.

In all series the results must be carefully noted and recorded. Large effect obtained simply by expenditure often indicates waste of ammunition.

Practice should always be carried out so as to represent the different phases of an attack or defence, and targets placed accordingly.

In order to accustom the Battery Commander to reconnoitre, he should select his own position and occupy it in the method which he considers best suited to the occasion.

Moving Targets.

6. The Moving and Surprise targets and the stores required to work them will be furnished from Colonial Ordnance store. Whenever possible, several of these targets should be run abreast so as to give a broad front.

Each rope should be fastened to a limber. A full team should be used.

The pace of the moving target may be doubled by attaching a single block to the limber. The rope is passed through this and made fast to a holdfast.

Cavalry targets should move at a gallop within 1,000 yards.

The arrangements for the safety of the range are the same as with standing targets.

Practice will be carried on only :—

(i.) When the target is advancing directly towards the Battery.

(ii.) When advancing obliquely.

(iii.) When crossing the front.

No practice is allowed at a target retiring directly or obliquely, on account of the risk of a ricochet.

In (i) the post, with the bollard fixed to it, is driven in front of the firing position, the rope is passed round the bollard and taken to a flank. If the bollard is within 600 yards of the firing position—that is, within reach of a burst at the muzzle—the team should be 400 yards to a flank before starting. If the bollard is more than 600 yards from the firing position it is sufficient if the team is 259 yards to a flank. The rope can, if desired, be led through the Battery. The team then moving straight to the rear, the target is advanced right up to the Battery.

In (ii) it depends upon the angle whether a bollard is used or not. The general rules just given as to the distance the team should be to the flank must be followed in (ii) and (iii).

Surprise Targets.

7. These targets will be in accordance with the patterns as described in chapter IX Section 2. Instructions for practice 1893 for Royal Horse, Field and Mountain batteries.

The targets with necessary stores required to work them will be furnished from the Colonial Ordnance Store.

Range Party.

8. In order that the results of practice may be accurately recorded, a range party is to be detailed under an Officer, who will be responsible that the results of the fire are carefully judged and correctly recorded. There is no position where Officers can learn more regarding the action and effect of shell, than they can when employed on range duties, provided they watch and criticise the effect of each shell.

Marks should be invariably placed 50 and 100 yards short and over the target to assist the range Officer's judgment, but so arranged as not to be visible from the battery; a dummy placed edge on to the line of fire answers well.

The range party should not be stationed nearer to the line of fire than 400 yards when firing shrapnel shell.

Digitized by Google

When the nature of the ground does not allow of the range party being posted at a convenient distance from the target, it is desirable that a splinter proof shelter should be provided for it.

Safety.

9. The Officer commanding the practice is responsible for the safety and clearness of the range from the battery to the target, and as far beyond the latter as he can see. He is also responsible that the range beyond the target is in distinct view either of himself or of the range party. No practice is to be carried on unless the ground covered by the last ricochet of the projectile is well within the observation of some responsible person.

Section Commanders are responsible that the correct target is layed on, they are also responsible that their guns are not fired when within the danger angle.

A red screen or flag is to be at the firing point and another with the range party—they are not to be raised or lowered, except by direct order of the Officer commanding on the spot. When the range party's screen or flag is not displayed, it is an indication that all is safe.

No firing is to take place when any flag or screen is up. The range party should hoist their red screen or flag immediately on arrival at the position they are going to occupy during the practice, and should leave it up until the screen or flag at the firing point is raised, when, if the range is clear, the range screen or flag should be lowered.

Before the practice commences the screen or flag at the firing point should be raised and kept up until the range screen is lowered. When a series is completed, and it is safe for the range party to approach the target, the screen or flag at the firing point should be again raised and kept up until the range screen or flag being lowered shows that the range is clear. This need not be done between series unless it is required to go on the range.

When the Officer in command of the practice wishes to stop the firing, he will sound his whistle, "*which is to be at once repeated by all Officers*"; he will not order the red screen or flag to be raised until he has satisfied himself that this order to "Stand Fast" has been obeyed throughout. When ready to recommence he will order the screen or flag to be lowered, but will not give the order to "Go on" until this signal is answered by the lowering of the range party's screen or flag.

Observation of Fire.

10. When the Battery commander can see the target, he will observe for himself, otherwise it will be necessary to send an observing party to some point from which the target as well as his position can be seen, and the result of observation will be communicated to him by signal. Observation with the naked eye is generally speaking, inaccurate; field glasses should therefore be used.

When an observing party is used, one signaller will accompany it, and another remains with the battery. Each will be equipped with two large blue and two large white flags.

Each signaller will inform the other what flag he is to use, and may move him a short distance right or left, higher up or lower down to suit the back ground, but this movement must not interfere with other more important considerations. The observing signaller must be completely concealed from the enemy, if possible, and the battery signaller must be in a position which is convenient to the battery commander.

The result of each ranging round will be signalled by the following simple code:—

One flag held perpendicularly over the head, and one at arm's length towards the target, will signify "Over."

One over the head and one away from the target will signify "Short."

Both flags perpendicularly over the head "Range."

One horizontally in the left hand (the signaller facing the battery) will signify "Left," or if in the right hand "Right." If two flags are used in this signal, it means that the shot has fallen at a considerable distance left (or right) of the target.

Both flags held out horizontally, right and left, will signify "Line."

"Doubtful" will be signalled by holding a flag in each hand obliquely downwards and outwards.

Several waves over the head backwards and forwards, "Air" for time shrapnel.

Several waves near the ground "Graze."

"Over" or "Short," will be signalled before "Right" or "Left," so that the battery commander may immediately order the elevation for the next gun before reading the signal for line.

Code signals will be maintained until acknowledged by a single short wave of the flag.

When time shrapnel commences, the battery signaller will make the signal for "Line," when battery fire is ordered he will make the signal for "Range."

The observing party will watch the fire after "Battery Fire" has been signalled, and will report the result by the same code, if in their opinion an alteration of elevation, line or fuze is necessary.

Messages between the battery and the observing party will rarely be necessary. Should such however, be the case, as, for example, if the battery has received fresh orders, or if the target has moved, a written message will be sent by orderly.

APPENDIX VI.

REGULATIONS FOR FIELD BATTERY COMPETITIONS FOR BADGES AND PRIZES, SKILL-AT-ARMS OVER LAND RANGES, GUNNERY BADGES AND PRIZES, AND LAYERS' PRIZES.

A. Battery Competitions.

1. On the day fixed for the Competition, Batteries will parade as strong as possible, as the object is to test the capabilities of the individual Battery and not of a few of its members only.

2. An Officer will be detailed as the Umpire, assisted, if possible, by an Assistant Umpire. Their duties will be as follows:—

1. To make all arrangements as to targets, ranges, and range party, independently, when possible, of competing Batteries.
2. To give necessary orders, written or otherwise, to the Battery Commanders previous to the Battery being brought into the firing position, and to superintend the drawing of lots for the order of firing by Batteries. Each Battery will fall in by sub-divisions, rolls called, and detachments formed out of them. The various sub-divisions are not to be mixed up, each one will stand on its own merits; one quarter of the Battery must be present, and at least one Section completely manned; incomplete sub-divisions will be disqualified.
3. To take the time, award credits, record and tabulate results.

3. The Umpire will watch the working of the Battery for unnecessary noise, uncalled for repetitions of orders, undue interference by the Battery Commander, in the battery working, slovenly drill.

He will allot credits from a total of 100 (gunnery mistakes, faulty observation, &c., will carry their own penalty in loss of credits for effect).

4. Credits should be awarded on the following system:—

The Chief Umpire should place himself near the Battery Commander, and the Assistant Umpire near the other flank of the Battery.

The Umpires should take notes during each series, they are at liberty to go into the Battery, but must be careful not to interfere in any way with its Officers or men except in cases where the safety of the individuals is at stake.

After the Battery has fired its three series, the Umpires should meet, and after consultation agree as to whether it is 1st, 2nd, or 3rd Class, considering its fire discipline, system and style, and also the capacity for command shown by its Commanding Officer.

Taking a perfect Battery as worth 100, marks are deducted if it fails in any respect, and from the figure thus obtained marks are deducted for any lapses in drill and discipline that may have been noticed during practice.

For instance, if a Battery is perfect it would receive 100; if first class but not perfect 95, and so on; and from this figure the marks for mistakes observed during practice, say 10, are taken, which brings the fire discipline award down to 90 or 85, as the case may be.

Marks for fire discipline must be awarded before the record of hits is known.

Detailed Instructions for carrying out the Practice.

5. The competitive practice consists of three Series, each Series consists of 24 rounds, or as many of them as can be fired in the following times:—

First Series	.....	8 minutes.
Second ,,	.....	7 ,,
Third ,,	.....	6 ,,

For 4 Gun Batteries with 7 pounder guns.

The time is taken in each case from the first command or signal for "Action."

Any rate of fire authorised by the Drill Book may be used, but it must be regular.

Digitized by Google

6. The maximum credits to be obtained are 384, and those to qualify for different prizes as under:—

1st	Prize	270
2nd	,,	240
3rd	,,	200

But whatever its total credit may be, it is necessary for a Battery to qualify in fire discipline credits, as under, before it can receive prizes as above:—

	Fire discipline.
For 1st Prize	85
,, 2nd ,,	75
,, 3rd ,,	60

A tie for a Battery prize will be decided in favour of the Battery making the highest score for effect; if still a tie, in favour of the highest score at the longest range.

7. The Officers, N.C.O.'s, &c., whose place is with the wagons must, however, take no part in the practice, with the exception of the Nos. 6. As these cannot be carried on the limber they will, previous to each series, be marched to the firing point by an umpire and will join their sub-divisions directly the Battery comes into action.

8. The Captain will, during the series in which he is not in command, remain on the same flank as the Major, but quite clear of the Battery; he will not take any part in the practice. The Major will take up a similar position when fallen out.

9. During one series the Battery Commander will fall out, and the next senior take command. The change will take place as soon as the Battery Commander has been informed of the layers required for the series, and he will then *immediately* fall out to the position described above for the Captain. He will resume command as soon as the Battery has limbered up on the conclusion of the series.

10. The selection of the series for which he is to fall out is left to the Battery Commander, and will be notified to the Chief Umpire before the commencement of the first series.

11. The following points are common to all series:—

No gun is to be fired after "Cease Firing" is given, except those which are loaded or partly loaded at the time when the order is given.

Partly loaded means the shell in the bore.

If all the guns which were loaded (or partly loaded), when the order "Cease Firing" was given have not been fired at the end of one minute after "Time," the Chief Umpire will order "Stand Fast." After this no gun may be fired at the target. The Chief Umpire will give orders as to the firing (off the target) of any guns which are loaded with "Time" shell.

12. To avoid firing more than the authorised number of rounds in any series, the Battery Commander may at any time order "Stand Fast," and then, if he finds he has fired the 24 rounds, he will report to the Chief Umpire, and the loaded guns will be fired (off the target) under the direction of the Chief Umpire.

In order to assist the Battery Commander to avoid firing more than the authorised number of rounds, the Chief Umpire will say to him "Twenty-third Round," *directly the twenty-third round has been fired.*

The penalty for firing an extra round is the loss of one-half the total marks gained for the series, two extra rounds, therefore, cause the loss of all the marks for the series.

13. From "Prepare for Action" before the first series to "——— Limber up" at the end of the third series, the Battery will be under observation. There is no pause between series for the rearrangement of ammunition.

14. In order to ensure the training of a full complement of layers, different layers should be employed at each series, i.e., 3 per sub-division, who should be distinguished by red, blue and white bands respectively on the left arm. Before each series an Umpire will inform the Battery Commander which layers (red, blue or white) are to be employed. Sergeants are not allowed to lay at competition.

First Series.

15. When the Battery arrives on the Practice Ground, the Battery Commander will receive instructions to halt, and prepare for Action, and the layers named.

As soon as the Battery is ready he will receive instructions from the Chief Umpire as to the position the battery should occupy.

Having received his orders, the Battery Commander will bring his Battery into action by the "direct" occupation of the position indicated; the Battery must be in action within 5 minutes after the Commander has received his orders, or all marks will be forfeited for the series.

As soon as the time allowed for the series is expended, the Chief Umpire will say to the Battery Commander "Time," the latter must immediately give "Cease Firing," followed in due course by "Limber Up."

As soon as limbered up, he will lead the Battery into a position which will be indicated to him, and the second series will commence.

In this series, range takers (if present) must be employed.

Second Series.

16. As soon as the Battery is halted, after the first series, the Battery Commander will be informed which layers will be required for the second series, and as soon as they are in their places he will ride forward to the Chief Umpire. Having received his instructions, the Battery Commander will bring his Battery into action by the "Direct" occupation of the position indicated. The Battery must be in action within 3 minutes after the Battery Commander has received his instructions or all marks for the series will be forfeited.

The procedure on the Chief Umpire calling "Time" will be exactly as described for the first series; and after limbering up the Battery is, as in that case, halted in a position indicated by an Umpire.

In the second series the use of range-takers is optional.

Third Series.

17. The directions for carrying out the third series are exactly the same as those given above for the second series except that range-takers are not allowed and tangent sights must be used.

Targets and Marks.

18. First Series.—A six gun Battery in action, at full interval, limber, supply, 43 dummies representing Battery Commander, Captain, Section Commanders, Battery Sergeant Major, Trumpeter, and Gun Detachments placed at their proper posts in action being employed. No dummy guns or limbers. Range from 2,400 to 3,000 yards.

Four marks are given for each dummy disabled by a lodge or through, two marks for each dummy blown down without being hit.

Second Series.—A line of Infantry, represented by 67 standing dummies, at 1 yard interval. Range from 1,600 to 2,400 yards.

Two marks are given for each dummy disabled by a lodge or through, one for each dummy blown down without being hit.

Third Series.—A line of Infantry, represented by 67 kneeling dummies, at one yard interval. Range from 1,200 to 1,800 yards.

Marks as for the second series.

The targets of each series should be arranged in echelon, so as not to be struck when another series is going on.

B. Gunnery Competitions.

1. Preliminary Examination.

19. The examination will be as follows:—

As soon as he receives intimation as to the probable date on which the written examination will be held, each battery commander will assemble a Board, which should consist of three Officers, whenever that number is available to carry out a preliminary examination of the Non-commissioned Officers and men in the following subjects:—

20. Section Gun Drill. (Full marks, 40.)

Non-commissioned Officers:—

Drilling a section and imparting instructions.

The nature of the drill should be regulated according to the rank of the Non-commissioned Officer examined.

Gunners—Efficiency in Section gun drill.

Fuze Setting. (Full marks, 10.)

Non-commissioned Officers and Gunners.

The competitor will stand behind a limber, which is to be in the same condition as if in action, the covers having been removed from cartridges beforehand.

The examiner will give "Fuze-set." At this the competitor will proceed to properly fill the two portable magazines with shell and cartridges, all the fuzes being set at the graduation ordered. As soon as he has filled the portable magazines, and closed them, the competitor will say "Take Post," and step clear.

The limber box will be left open.

The time will be taken from "Set" to "Take Post," and to obtain full marks the time must be 1 minute 30 seconds or under.

Two marks will be deducted from every five seconds, or fraction of five seconds over this time, and five marks for every fuze incorrectly set, or not tightly clamped. Insufficient clamping is the most fruitful source of prematures and bursts short. Five seconds will be added to the time taken if the portable magazines are not properly closed.

II. Written Examination.

21. The Non-commissioned Officers and Gunners who obtain 20 marks or more in the preliminary examination will afterwards undergo a written examination in questions concerning the guns of their Batteries. Papers will be sent to Battery commanders, by whom they are to be kept, and not opened until the day of the examination. A sufficient number of papers will be sent to enable every competitor to have a separate copy. The time of each examination is limited to two hours.

22. The value of each question will be assigned by the framer of it for the guidance of the Board.

23. The total number of marks obtainable in the written examination is 60, and in order to qualify for a prize, at least 20 marks must be obtained.

24. The Board will award marks for these examinations, and the whole of the proceedings will be submitted to the Officer Commanding the P.A.O. Cape Field Artillery before the results are published in Corps Orders, the marks gained at the preliminary examination being recorded separately from those gained in the written examination.

25. The Badges and Prizes will be awarded on the totals of the two examinations; a tie being decided in favour of the competitor who obtains the highest marks in the written examination.

C. Layer's Competition.

26(*a*). Sergeant Layers' Prize.

The Sergeants will be examined as detailed for the layers, and the prize will be awarded to the Sergeant who gets most marks. In the event of no Sergeant obtaining the number of marks required to qualify for layer, no prize will be awarded.

26(*b*). Layers' Prizes.

27. The prize layers will be selected by the Battery Commander from the list of qualified layers, and should be those who have proved themselves best in the laying examination. Should any one of the layers selected by the examination fail systematically during practice, the prize will be given to the next best on the list, subject, of course, to the same reservation. A list of qualified layers is to be kept by the Commanding Officer, and no gun is to be fired unless layed by a qualified layer.

In order to qualify to be placed on this list, a Non-commissioned Officer or Gunner is to be tested under (*a*) and (*b*) as described below, on three different days. The competitor should score not less than 60 at each trial.

It is considered that any Non-commissioned Officer or Gunner with good sight can obtain the necessary qualification by care and attention.

Artificers below the rank of Sergeants are allowed to compete.

Laying Examination. (Full marks 72.)

The examination will be divided into:—

(*a*) Laying by use of the sights.

(*b*) Indirect laying.

(a) *Tangent Sight.*

Three well defined objects at least 20 degrees apart at medium ranges are to be chosen as targets, and the exact part of the target to be layed on is to be clearly explained to the competitor, or pointed out by laying the gun on it. The elevation and deflection given will always be to some graduation marked on the sights. The layer and traversing number must perform their duties exactly as detailed in the handbooks of their guns.

The left tangent sight set at zero is placed in the gun. The telescopic sight (which should be tested, and corrected if necessary) also at zero is placed in the gun, the right tangent sight set at zero is in the competitor's hand.

The examiner gives:—

"Elevation," "Deflection," "Lay."

The competitor will not attempt to set his tangent sight until the word "Lay" is given. To lay, the competitor will set the sight and place it in the gun right side and lay with the left (or zero) sight.

As soon as the gun is layed, the competitor will say "Take post," and step clear. The time is taken from the "Lay" to "Take post."

The examiner first notes whether the right tangent sight is set as ordered. He then looks through the telescopic sight, and if the gun is layed within 3 minutes elevation and 6 minutes deflection, and the time is 30 seconds or under, then the competitor scores 8 for that round. For every five seconds or fraction of 5 seconds beyond 30 seconds he will lose one mark. If the last motion has not been one of depression two marks will be deducted.

If the sight is incorrectly set or the gun is not layed within 3 minutes elevation and 6 minutes deflection, no marks will be given for that round. The second and third rounds will be layed at the other targets with different elevations and deflections under the same conditions.

Telescopic Sight.

Target as for Tangent sight.

The telescopic sight, set at zero, and eyepiece focussed is in the competitor's hand.

The Examiner gives:—

"Elevation," "Deflection," "Lay."

The same rules as for the tangent sight. The Officer first notes whether the sight is set as ordered, but does not alter it. He then looks through the sight, and if the gun is layed within 3 minutes elevation and 6 minutes deflection, and the time is 30 seconds or under, the competitor scores 8 for that round.

Marks are deducted from this number as described for the tangent sight; in addition no marks will be given for the round if the sight is not properly levelled.

The second and third rounds will be layed at the other targets with different elevation and deflection under the same conditions. After each lay the examiner will alter the levelling screw.

In guns that have the elevating wheel on the left, and telescopic sight on the right side, the layer will be allowed, if he likes, to select a man to move the elevating wheel for him, and the time allowed will be 40 seconds instead of 30.

(b) *Indirect laying.*

Two aiming posts are placed in front of the gun, so that the line of eyesight over the tangent sight, set at zero, covers the posts.

At the order "Angle of sight—Elevation Deflection—Lay" the deflection ordered is placed on the tangent sight and the trail moved till the line of eyesight covers the posts.

If the posts are placed so that the line of eyesight over the tangent sight, set at zero, covers the posts, any deflection that may subsequently be put on the tangent sight will not necessitate the gun being crosslifted, but only the movement of the trail right or left.

The longitudinal level is set to the angle of sight, and the elevation ordered is placed on the drum of the telescopic sight and the gun elevated until the bubble is in the centre of the level.

Time, 35 seconds; full marks, 8. One mark will be deducted for every 5 seconds or fraction of 5 seconds over 35 seconds If the sight or the longitudinal level are incorrectly set or the gun is not layed within 3 minutes elevation and 5 minutes deflection no marks will be allowed.

If the bubble is not wholly visible, or if the last motion was not one of depression, 2 marks will be deducted.

D. Drivers' Competition.

28. The Commanding Officer will annually award the Driver's Badges and Prizes to the two best Drivers in the Battery. He will be guarded in his selection by the following points:—

Skill in driving.
Harnessing.
Fitting of Harness.
Cleanliness of Harness.

APPENDIX VII.

INSTRUCTIONS FOR EXAMINATION OF GUN LAYERS.

The examination will be as laid down for layers in the Royal Artillery.

APPENDIX VIII.

REGULATIONS FOR GARRISON ARTILLERY COMPANY COMPETITIONS FOR BADGES AND PRIZES, SKILL-AT-ARMS OVER SEA RANGES, GUNNERY BADGES AND PRIZES AND LAYERS' PRIZES.

A. Company Competitions.

1. The competitive practice for Badges and Prizes referred to in Paragraph 105(*b*) will be carried out according to instructions which will be issued annually.

B. Gunnery Competition.

2. The Non-commissioned Officers and men who enter for this competition must be selected by their Company Commanding Officers as smart and efficient Artillery men.

3. A Board will be assembled to carry out a preliminary examination in drill. Those who satisfy the Board as to their efficiency will be allowed to proceed to the written examination. Papers will be set under the direction of the Adjutant.

4. The value of each question will be assigned by the framer of it, for the guidance of the Board.

5. The total number of marks obtainable in the written examination is 60, and in order to qualify for a prize, at least 20 marks must be obtained for a 3rd Class Badge, 30 for a 2nd Class, and 40 for a 1st Class.

6. Competitors who cannot write will be permitted to dictate their answers. Such men must be examined separately, and onesixth of the marks obtained will be deducted from their answers.

7. A tie will be decided by verbal questions.

C. Layers' Competition.

8. Prizes will be awarded after a competitive examination amongst all the qualified layers. In the event of the minimum number of marks required to qualify for a layer not being obtained prizes will not be awarded.

"Corporation" means the Town Council of the City of Cape Town. PROPOSED "KOMGHA MUNICIPALITY."

NOTICE.

IN terms of Section 9 of Act 45 of 1882, Notice is hereby given that at a Public Meeting of Householders and Registered Voters resident within the limits of the present Village Management Area of Komgha, held on 1st July, 1903, the following Petition to His Excellency the Governor was adopted unanimously, praying that the Area therein defined should be constituted a Municipality in terms of the said Act, of which Resolution due intimation is hereby made to all concerned.

Komgha, 8th July, 1903.

Unto His Excellency Sir Walter Francis Hely-Hutchinson, K.G.C., K.C.M.G., Governor and Commander-in-Chief of His Majesty's Colony of the Cape of Good Hope, and of the Colonies and Dependencies thereof, &c., &c., &c.

The Humble Petition of the Undersigned sheweth:—

That your Petitioners are Registered Voters, not less than twenty-five in number, for the election of Members of Parliament, resident within the area of the proposed Municipality of Komgha, as after described.

That the town of Komgha is the seat of a Magistracy, and is the centre of extensive pastoral and agricultural enterprise and interests. It is in process of being connected with the rest of South Africa by Railway, and this fact, combined with rapid increase of population, and extension of business pursuits, renders the adoption of a Municipal form of government, in the interests of the public health, a matter of urgent necessity.

That your Petitioners desire that Your Excellency should declare the town of Komgha a Municipality under the provisions of the "Municipal Act of 1882," and assign the name of "Komgha Municipality" to such Municipality, the area of which will be the limits contained within the following boundaries, which are identical with those now under the control of the Komgha Village Management Board, as defined in Government Proclamation No. 131 of 1903, viz.:—"From the South-Eastern Beacon of the Komgha Commonage, common to Farms No. 223, No. 225, and 257, as shown on plan 1952°°, filed in the Surveyor-General's Office; thence along the boundaries of the following Farms, so as to exclude them from the area, No. 257, No. 260, No. 278, No. 217, to the Great Kei Road; thence along the Great Kei Road to its junction with the North-Western Boundary of Komgha Commonage; thence along the boundaries of the following Farms, so as to exclude them from the area, Farm No. 218 and Farm No. 223, to the Southern Beacon common to Komgha Commonage, being the Beacon first named."

That your Petitioners desire generally to exercise, when found necessary, the entire powers conferred on Municipal Authorities under said "Municipal Act of 1882"; and specifically, that said proposed Municipality be governed by a Council composed of a Mayor and five Councillors; that it be vested with powers of entering into contracts, and of borrowing money for the purpose of, and subject to the provisions of the said "Municipal Act of 1882"; also power to hold Municipal lands and to apply to Your Excellency, in writing, for consent to dispose of, or alienate, or permit to be built upon, enclosed, or cultivated any part or portion of the Commonage pasture lands of the Municipality, or any other lands which shall be vested in the said Council; to appoint Officers to assist in the execution of the Act, and to pay them such salaries as the Council may determine, and to suspend and dismiss such Officers; to frame Bye-laws and Regulations as provided in Section 109 of the said Act; to make valuations, and to make, levy, and recover rates upon all rateable property within the Municipality.

Your Petitioners humbly pray that Your Excellency in your discretion will be pleased to grant the prayer of this Petition, or such part or parts thereof as to Your Excellency may seem just and meet in the premises.

And your Petitioners, as in duty bound, will every pray.

W. H. SWAN.

A. C. SEALE.

H. V. BROWN,

A. D. CAMPBELL.

And 24 other Registered Voters resident with proposed Municipal Area.

7. The period of wear will count from the date of issue to the men. Clothing given up by non-effectives will be returned to regimental store for re-issue to other men for whom it may be suitable.

8. Recruits on joining will be furnished with Khaki uniform and Field Service cap only, for drill order parades, the remainder will be issued on completion of recruit's course.

9. All clothing, when taken into store, will be thoroughly examined, and the pockets emptied. The cost of repairs for damage done wilfully or by neglect will be recovered from the individual.

10. All clothing which has been in use for the prescribed period will be returned to Ordnance Store unless otherwise directed.

11. Men promoted to a higher grade involving alteration in uniform will have the necessary alterations made at the public expense, if the uniform of their former rank can be utilized; if not, they will be supplied with new uniform.

12. The following members of the (P.A.O.) Cape Field Artillery will be supplied with uniform as mounted men:—All the N.C.O.'s, trumpeters, drivers, shoeing smiths, collar-makers, wheelers and signallers.

13. Clothing and accoutrements issued to individuals will be marked with the initials of the Corps, the man's number, the month and year of issue. When an article is re-issued to another man, a line will be drawn through the old regimental number and the new one inserted thus:—

	First marking.	Second marking.
Corps	C.F.A.	C.F.A.
Regimental Number ...	128	200
Month and year of issue	7/98	4/99

14. Whenever arms, accoutrements or clothing are issued to any Non-commissioned Officer or man, he will be required to sign for the same in the Clothing ledger.

15. All arms, accoutrements and clothing which have been issued to any Non-commissioned Officer or man must be returned into store in good condition, fair wear and tear excepted, before he is permitted to quit the Corps either on discharge or on leave, except in the case of Sergeants who retire after having completed ten years in that rank, and who are permitted to wear their uniform with the letter "R" embroidered on their shoulder straps.

16. The Quartermaster of each Corps will be responsible that all articles returned into store are taken on charge in the Clothing and Equipment Ledger.

17. Should any article be deficient or be returned which in the opinion of the Commanding Officer has been damaged wilfully or by neglect and not through fair wear and tear, the amount of the loss or damage will be assessed by the Commanding Officer, and recovered from the individual in the usual manner.

18. When arms, clothing, accoutrements or equipment are lost or damaged under exceptional circumstances, the matter will be immediately investigated by a Board of Officers, who will recommend whether the loss should fall upon the public or not.

19. In the event of any article being lost, and if the loss can be traced to irregularities in the mode of keeping the various equipment books, the Commanding Officer will be held responsible.

20. A list of all spare parts for the repair of Arms and equipment which are kept in Ordnance Store will be supplied on application by the Senior Ordnance Officer.

Authority must be obtained to purchase locally any articles not mentioned on this list.

21. All minor repairs and necessary alterations to Arms, equipment, painting of guns, &c., will be executed when required, and the usual vouchers with bills attached will be submitted to the Colonial Military Secretary.

22. A Commanding Officer may at any time order Arms, clothing and accoutrements to be returned into store, and if, upon inspection, he finds that they have been improperly or negligently kept, he may inflict a fine for such negligence not exceeding the cost of repair, or, if unrepairable, the cost of the new articles.

Should he at any time have reason to believe that Arms or other articles of Government property are deficient, he will at once cause a Board of Officers to assemble to investigate the matter and fix the amount of fine.

23. The Master Tailor in each Corps will be required to fit all clothing, sew on chevrons, make the necessary alterations and execute all repairs according to the following scale :—

PROPOSED "KOMGHA MUNICIPALITY."

NOTICE.

IN terms of Section 9 of Act 45 of 1882, Notice is hereby given that at a Public Meeting of Householders and Registered Voters resident within the limits of the present Village Management Area of Komgha, held on 1st July, 1903, the following Petition to His Excellency the Governor was adopted unanimously, praying that the Area therein defined should be constituted a Municipality in terms of the said Act, of which Resolution due intimation is hereby made to all concerned.

Komgha, 8th July, 1903

Unto His Excellency Sir Walter Francis Hely-Hutchinson, K.G.C., K.C.M.G., Governor and Commander-in Chief of His Majesty's Colony of the Cape of Good Hope, and of the Colonies and Dependencies thereof, &c., &c., &c.

The Humble Petition of the Undersigned sheweth:—

That your Petitioners are Registered Voters, not less than twenty-five in number, for the election of Members of Parliament, resident within the area of the proposed Municipality of Komgha, as after described.

That the town of Komgha is the seat of a Magistracy, and is the centre of extensive pastoral and agricultural enterprise and interests. It is in process of being connected with the rest of South Africa by Railway, and this fact, combined with rapid increase of population, and extension of business pursuits, renders the adoption of a Municipal form of government, in the interests of the public health, a matter of urgent necessity.

That your Petitioners desire that Your Excellency should declare the town of Komgha a Municipality under the provisions of the "Municipal Act of 1882," and assign the name of "Komgha Municipality" to such Municipality, the area of which will be the limits contained within the following boundaries, which are identical with those now under the control of the Komgha Village Management Board, as defined in Government Proclamation No. 151 of 1903, viz.:—"From the South-Eastern Beacon of the Komgha Commonage, common to Farms No. 223, No. 225, and 257, as shown on plan 1932^{99}, filed in the Surveyor-General's Office; thence along the boundaries of the following Farms, so as to exclude them from the area, No. 257, No. 260, No. 278, No. 217, to the Great Kei Road; thence along the Great Kei Road to its junction with the North-Western Boundary of Komgha Commonage; thence along the boundaries of the following Farms, so as to exclude them from the area, Farm No. 218 and Farm No 223, to the Southern Beacon common to Komgha Commonage, being the Beacon first named."

That your Petitioners desire generally to exercise, when found necessary, the entire powers conferred on Municipal Authorities under said "Municipal Act of 1882"; and, specifically, that said proposed Municipality be governed by a Council composed of a Mayor and five Councillors: that it be vested with powers of entering into contracts, and of borrowing money for the purpose of, and subject to the provisions of the said "Municipal Act of 1882"; also power to hold Municipal lands and to apply to Your Excellency, in writing, for consent to dispose of, or alienate, or permit to be built upon, enclosed, or cultivated any part or portion of the Commonage pasture lands of the Municipality, or any other lands which shall be vested in the said Council; to appoint Officers to assist in the execution of the Act, and to pay them such salaries as the Council may determine, and to suspend and dismiss such Officers; to frame Bye-laws and Regulations as provided in Section 109 of the said Act; to make valuations, and to make, levy, and recover rates upon all rateable property within the Municipality.

Your Petitioners humbly pray that Your Excellency in your discretion will be pleased to grant the prayer of this Petition, or such part or parts thereof as to Your Excellency may seem just and meet in the premises.

And your Petitioners, as in duty bound, will every pray.

W. H. SWAN,
A. C. SEALE,
H. V. BROWN,
A. D. CAMPBELL,
And 24 other Registered Voters resident with proposed Municipal Area.

4. The Governor shall at all times have the right of resuming the whole or a portion of the said lands if required for public purposes, without compensation except for improvements to the said lands; and the amount of such compensation shall be agreed upon by parties concerned, or failing such agreement shall be determined by arbitration.

13. The Council may purchase or provide such engines and appliances for extinguishing fire, and such water buckets, pipes, and other appurtenances for such engines and such fire escapes and other implements for safety or use in case of fire, and may purchase, keep, or hire such horses or provide such other power for drawing such engines as they think fit; and may purchase, build, provide, or hire places for keeping such engines with their appurtenances and for the horses and for the accommodation of the persons charged with the management thereof, and may employ a force of firemen and form an association of citizens to assist in the suppression of fire, and such force and association shall be known as "The Green and Sea Point Municipal Fire Brigade," and shall be under the command of an officer appointed by the Council and styled the "Superintendent of the Fire Brigade," and the Council may make rules for the regulation of the said brigade, and may therein prescribe who shall be the officer in charge of the brigade at any fire when the Superintendent is absent or incapacitated from acting, and may also give such firemen and other persons such salaries and rewards for their exertions in case of a fire as the Council think fit. In the absence or incapacity of the Superintendent, unless it be otherwise prescribed in the regulations, the senior in rank in the brigade present at any fires shall assume the duties of the Superintendent, and be the officer in charge for the time being. In the succeeding sections, from fourteen to twenty-three inclusive, the term "Superintendent" shall be taken to include the officer in charge for the time being of the brigade.

14. On the occasion of any fire within the Municipality, the Superintendent of the said brigade shall, from the time he arrives at the fire, have control over the property on fire, and over such other property as may be considered by him at risk, and shall also so continue until he reports to the Council that the fire has been extinguished, which report may be made verbally to the Mayor or municipal clerk. He may in his discretion avail himself of the assistance, and if he does accept such assistance, shall take command of any persons who may voluntarily place their services at his disposal, and generally he may take any measures that may appear expedient for the protection or saving of life and property, with

power by himself, his men, or any person under his command, to enter upon, break into, or through, or take possession of, pull down, or destroy any buildings or other property for the purpose of protecting, saving life or property, or putting an end to or preventing the spread of a fire, doing as little damage as possible; and for these purposes he shall have a free right of access to and liberty to draw water from the water mains of the Municipality of Green Point and Sea Point, from all tanks and cisterns whether on municipal or other property, and, subject to agreement with the Corporation of Cape Town as hereinafter provided, from the water mains of the Cape Town Council, but the said Council shall not be compelled to enter into such agreement. The persons volunteering as aforesaid and any other person whose services may be temporarily engaged, for the time they are assisting shall be deemed to be members of the said brigade and the superintendent shall have power to dispense with the services of any of them at any time.

15. The Council shall have the right to enter into any agreement with the Corporation of the City of Cape Town for the use of water from the Cape Town mains and for assistance if necessary from the Metropolitan fire brigade in case of fire.

16. The police shall aid the brigade in the execution of their duties; they may close any street, passage or thoroughfare in or near which a fire is burning, and may on their own authority and at the request of the Superintendent remove any persons who may interfere, or are considered as likely to interfere by their presence or otherwise with the operations of the brigade.

17. The brigade, the police, and all persons acting under the orders of the Superintendent are hereby indemnified and exempted from all claims and demands whatever by reason of anything necessarily done in the execution of their duty, and the Mayor and Council are hereby indemnified and exempted from all claims or demands whatsoever by reason of any damage done upon sufficient necessity by them, the brigade, the police, and other persons aforesaid.

18. The Council shall be authorised to charge on a private dwelling-house and its outbuildings which shall be or shall have been on fire, the sum of five pounds sterling for the services of the brigade and the use of fire engines and appliances, and also the sum of one pound sterling per hour for every jet of water supplied during the time that such jet shall be playing upon the said dwelling-house, its outbuildings and contents, and upon the adjoining buildings and erections to prevent the extension of the fire. And the Council are hereby authorised to charge on every building (other than a private dwelling-house and its outbuildings) which shall be or shall have been on fire, the sum of ten pounds sterling for the services of the brigade and the use of the fire engines and appliances, and also the sum of two pounds sterling per hour for every jet of water supplied during the time that such jet shall be playing upon any such building and its contents and upon any adjoining buildings and erections to prevent the extension of the fire: provided, however, that the provisions of this section shall not extend to any buildings owned or occupied by the Government of this Colony when and so long as any special agreement exists between the Council and the Government as to the terms upon which the Council will grant the services of the brigade and supply water for the extinguishment of fires upon such buildings.

19. The amounts charged on any building, in terms of the last preceding section shall be payable by the owners and occupiers of such building in equitable proportions, and the distribution thereof shall be made by the Superintendent whose certificate shall be final and binding upon all persons interested, without appeal or review on any ground whatever. The amount charged on any building shall, however, be recoverable by the Council from the owner or the occupier thereof, or both, who may be sued jointly or severally, each for the full amount in any court of competent jurisdiction, and any owner or occupier paying the full amount charged as aforesaid shall be entitled to be reimbursed by the other owners and occupiers to the extent to which according to the said certificate they are severally liable.

20. No expenses incurred by the Council or the Superintendent in causing to be pulled down or destroyed any buildings or erections, or any parts thereof, for the purpose of putting an end to or preventing the spread of a fire, or for saving life, or in attempting to save buildings adjacent to or in the vicinity of a fire shall be chargeable against the owners or occupiers of immovable property, but the Council shall not be liable to rebuild or repair or make compensation for any damage caused to any persons or any buildings or other erections so dealt with.

21. The Council shall be entitled to sue for and recover all expenses incurred by them and the Superintendent in saving and removing and in attempting or with a view to save or remove movable property from any buildings or erections on fire and from any buildings or erections adjacent to or in the vicinity of any building or erection on fire, and all expenses in keeping safe custody thereof, from the owners of the movable property saved or removed in equitable proportions, and the Council shall have an absolute lien upon the movable property so saved or removed until the expenses aforesaid shall have been received by the Council. The apportionment of the expenses

30. In the exercise of the powers in relation to the execution of works given under this Act the said Council shall cause as little detriment and inconvenience and do as little damage as may be, and shall make full compensation to all bodies and persons interested for all damage sustained by them by reason, or in consequence, of the exercise of such powers. FIRST SCHEDULE.

MEMORANDUM OF AGREEMENT made and entered into on the twenty-sixth day of July, 1901, between Thomas Rees Price, in his capacity as General Manager of Railways (hereinafter styled the General Manager) and as such acting for and on behalf of the Colonial Government of the one part, and George Bradford and Edward Poole trading as Bradford and Poole (hereinafter styled the applicants) of the other part:

Whereas the said applicants contemplate constructing a short branch line of railway about two miles in length from Durban Road Station, and whereas they have requested the said General Manager to construct the necessary siding connection with the main line of the Western System of Railways at a point at or near Durban Road Station as shown on plan No. 3094, and whereas the Colonial Government has agreed to construct partly on land belonging to the Railway Department and partly on land provided by the said applicants, a siding and loop capable of meeting the requirements upon certain terms and conditions hereinafter set forth:—

Now therefore these presents witness:

First.—That the said General Manager hereby undertakes and agrees to construct a railway siding and loop with the necessary points and signals at a point leading off the main line of railway at Durban Road Station as shown on plan No. 3094, partly on land belonging to the Railway Department and partly on crown land. The said applicants agree to pay to the said General Manager a nominal rental of twenty shillings per annum for the ground belonging to the Railway Department upon which the said siding and loop are to be constructed. (*b*) That the permission shall be terminable upon three months' notice given at any time when they shall be bound to remove the rails forthwith.
(*c*) That they shall not have the right to sublet or lease the land without the sanction of the Government.
(*d*) That the permission does not convey to them any claim to a grant of the land or to compensation for any improvements effected thereon.

Second.—That said siding and loop which are estimated to cost £750 (Seven Hundred and Fifty Pounds) shall be constructed by the Colonial Government at the expense of the said applicants, payment to be made in advance on the understanding that should the actual cost exceed the estimated amount the applicants shall pay such excess, and if the actual cost is less, the difference shall be refunded.

Third.—The said siding and loop shall be maintained in good order and repair by the Railway Department at the expense of the said applicants.

Fourth.—The Railway Department shall not be required to do any shunting in connection with the working of traffic to and from the brickfields to the siding and loop. The said applicants shall load and unload the trucks used in connection with their traffic at their own expense.

Fifth.—The said General Manager reserves the right to use the siding and loop for general traffic purposes, but not so as to interfere with the reasonable use of the said siding and loop by the said applicants.

Sixth.—The Railway Department shall have running powers over the said branch line on reasonable terms and the Department shall also have the right to transfer these running powers to any Company duly authorised by Parliament to construct a railway line in the direction of Durbanville from Durban Road Station.

Seventh.—The Railway Department shall have the right to take over the siding, loop and branch line at actual cost, less a reasonable deduction for wear and tear at any time during the existence of this agreement on giving not less than three months. notice of its intention so to do.

Eighth.—Should it be necessary to vary the position of the said siding and loop in any respect the General Manager shall be at liberty to do so, but at the Railway Department's own cost and subject to such alterations being as convenient as practicable to the said applicants.

Ninth.—The said General Manager reserves the right to sever the connection with the said siding and loop should the same be at any time no longer required by the said applicants on giving three months' notice.

Tenth.—The construction of the said siding, loop and branch line shall not be considered as a vested interest nor as increasing the value of the land adjoining them should it be necessary for the General Manager to expropriate the land for railway purposes in future.

Eleventh.—The said applicants shall be responsible for the safe keeping of all trucks or other property of the Colonial Government used on the said siding, loop or branch and in case the Colonial Government shall sustain any loss or damage or be put to any expense by reason of the neglect of the said applicants or their servants to adopt reasonable care and precaution in connection with the said trucks or other property, the said applicants shall make good such loss or damage or pay such sum or sums as the Colonial Government may pay or expend through their default.

Twelfth.—All trucks placed in the siding or loop shall be loaded or unloaded as the case may be by the said applicants within twelve ordinary working hours of their arrival at the siding, failing which the said applicants or other consignors or consignees will be liable to a charge for demurrage at the rate of 4s. (four shillings) per short truck and one shilling per sheet for every day or part of a day thereafter during which the trucks or sheets may be detained; a bogie truck to be calculated as two short trucks.

Thirteenth.—This agreement shall be terminable by either party giving the other in writing three months' notice to that effect.

SECOND SCHEDULE.

BE IT HEREBY MADE KNOWN:

That on this the 26th day of July, One Thousand Nine Hundred and One, before me Charles Hermanus Maasdorp of Cape Town, Notary Public, duly sworn and admitted, and in the presence of the subscribed witnesses personally came and appeared Sybrand Johannes van der Spuy of Oakdale in the Cape Division, who declared that:—

Whereas an agreement for the construction of a short branch line of railway about two miles in length from Durban Road Station, had this day been entered into between Thomas Rees Price in his capacity as General Manager of the Cape Government Railways and as such representing the Colonial Government, and Bradford and Poole with the contents of which the Appearer declared himself to be acquainted and

Whereas, upon certain facilities by way of compensation granted by Bradford and Poole to the said Appearer, the Appearer has agreed to the said branch line of railway running over the said farm Oakdale to a certain extent, and

Whereas at some future time it may be deemed necessary that the Colonial Government or some company or firm of which the Colonial Government may approve, undertaking the work, should take over the said branch line of railway and to extend the same across the whole length of the farm Oakdale in the direction of Durbanville, from any point on the said branch of railway.

Now therefore the said Appearer for himself and the future owners of Oakdale in consideration of the facilities aforesaid accruing to him under the aforesaid agreement and of a siding being laid on to his gravel pit in the vicinity of the brickfield about to be worked and at a cost not exceeding three hundred pounds (£300) to the said Colonial Government or Company hereby grants in favour of the Colonial Government as a perpetual servitude on his farm Oakdale all rights required for the purpose of laying down the branch line aforesaid and the extension thereof as aforesaid and binds himself and the future owners of the farm Oakdale to give transfer if required to the said Colonial Government of such portions of the farm Oakdale as may be required for the said branch line of railway and the extension thereof without any further compensation.

The Appearer further binds himself to place the Colonial Government in possession of his title deeds of the farm Oakdale, and all such other documents as may be required for the purpose of getting this deed registered in the Deeds Registry Office of this Colony against such title deeds.

Thus done and declared at Cape Town the day, month and year aforesaid, in the presence of George Samuel Oettle and Frederick John Street as witnesses, who together with the Appearer and me the Notary, have duly subscribed the original hereof now remaining in my protocol.

IMMIGRATION TO MADAGASCAR.

THE following translation of a Decree regarding immigration into Madagascar, lately promulgated by His Excellency the Governor-General of the Island of Madagascar, is published for general information.

SYDNEY COWPER,
Secretary to the Prime Minister.

[TRANSLATION.]

DECREE.

REGULATING IMMIGRATION TO MADAGASCAR.

The General Commanding in Chief of the Corps of occupation and Governor-General of Madagascar and Dependencies,

Considering the decrees of 11th December, 1895, and 30th July, 1897; the law of 29th May, 1874; article 3 of the Civil Code;

Considering that the ever-increasing presence of persons without means and resources on the territory of the Colony, besides constituting a danger to public security, occasions considerable expense for the local budget for their keep and sending them back to their native country, in order to regulate immigration;

The Council of Administration having approved, without reserve, with the approval of the Minister for the Colonies; Decrees:—

ARTICLE 1.

No one will be allowed to land in the Colony, who does not give proof of having a business there, or justifies himself by the possession of a capital of not less than 5,000 francs, or of employment, assured by contract, in terms of which a solvent employer guarantees to bear the expenses of his being sent back to his country, whatever may be the cause, unless a known and solvent person binds himself to bear the amount of these expenses.

ARTICLE 2.

For want of furnishing the proofs provided by Article I of the present Decree, immigrants will be bound to deposit in the hands of the Administrator of the port of landing, who will forward the deposit to the Treasury, a sufficient sum to guarantee the payment of expenses occasioned by their eventually being sent back to their country. This deposit is fixed at 100 francs for persons arriving from Réunion, and at 250 francs for those coming from any other destination. This sum can be returned to them after a stay of at least two years, on review of their position, by decision of the Governor-General. After five years the return will be theirs by right. In case of departure of the immigrants, whatever the length of their stay may be, deduction will be made from the sums which they might owe the Colony.

ARTICLE 3.

An agent, appointed for that purpose, will receive on board the declarations, the value due, and the deposits of the immigrants, and deliver to them the authorities to land, detached from a counterfoil register. The authority, as well as the counterfoil, will bear indication of the capital or the employment of which proof has been given, or will constitute a receipt for the sum deposited.

ARTICLE 4.

No one will be allowed to land without authority. Members of the crew landing will be furnished with a document signed by the captain attesting their identity.

Passengers putting into port and proceeding to another destination that the port of anchorage of the vessel will be bearers of a document, signed by the captain, setting forth, on his responsibility, the place to which the bearers are proceeding, and certifying that their baggage will not be delivered before arrival at that point.

ARTICLE 5.

No baggage will be delivered at the Custom-house before the owner has presented to the Agents his authority to land. The Excise Officers will immediately inform the police of persons who have not carried out this formality.

ARTICLE 6.

On the arrival on board of the Agent appointed by the Administration, the captain will hand to him a list of passengers, setting forth their names, age, profession, destination, etc., which will be verified concurrently with the papers of identity of the immigrants, and their passports if they are foreigners.

Mention of delivery or refusal of the authority to land will be made on this list, which will be returned to the captain; the individuals to whom authority has been refused will be placed under his charge. He will assure himself that no baggage will be delivered to them, and that they do not land under ony pretext.

ARTICLE 7.

The list of individuals to whom authority has been refused in one of the ports of the Colony will be telegraphed to all the others. The captain will, besides, present the list of passengers on which mention of refusal of authority figures.

ARTICLE 8.

Every captain, master, or coxswain of a vessel failing to present to the Agent the list prescribed by Article 6 of the present Decree, or presenting an incomplete or altered list, or hindering in whatsoever manner the mission of the Agent, or allowing the baggage of a passenger not authorised to land, to be landed, will be punished by a fine of from 16 to 100 francs, and with imprisonment of from one to five days or by one of these punishments only. In case of repetition of the offence, imprisonment will always be enforced.

ARTICLE 9.

Every person landing without authority will be conducted on board again under charge of the Police. If the vessel has left and is returning to the Colony, the captain must, on his return, take back this person on board; if the immigrant has been transported by a Company, his return to his native country will be imposed on the Company, on any of its vessels, on pain of a fine of 100 francs, on the captain, or in the second case on the responsible agent of the Company. The immigrant contravening the present Decree will be also liable to the penalties of the ordinary Police.

ARTICLE 10.

If a passenger who has landed, or a member of the crew, has not been able to regain the vessel before departure, the captain will apprise the authorities thereof as soon as possible.

ARTICLE 11.

The master of the port will only return the vessel's papers and deliver the permit to depart when he has been informed that the formalities prescribed by the present Decree have been fulfilled.

ARTICLE 12.

The Secretary-General, the Attorney-General, the Director of Administrative Service, the Head of the Customs Department, the Administrative Chiefs of the Provinces, and Commanders of the Circles of the Ports are charged, in so far as it may concern each of them, with the execution of this Decree, which will be notified everywhere where their is need of it.

MISCELLANEOUS DEPARTMENTAL NOTICE.

CUSTOMS NOTICE.

CUSTOMS UNION INSTRUCTIONS.

IMPORTANT to all Landing and Customs Agents, Importers, Merchants, Storekeepers and Traders, or others, who clear, sell, supply, or despatch imported goods, and goods and articles, the growth, produce, or manufacture of this Colony, to any other Colony, or Territory, within the Union, or to whom such goods are delivered, or consigned, within the Union after the 15th instant.

1. The South African Customs Union comprises the Cape Colony, Natal, Orange River Colony, Transvaal, Southern Rhodesia, Basutoland and the Bechuanaland Protectorate under the direct Administrative Control of the High Commissioner.

2. The Customs Regulations require that every person, without exception, who may sell, supply, or despatch any imported goods whatsoever, whether liable to duty or duty free (including flour wheaten and wheaten meal and pollard manufactured in the Union from other than South African wheat) whether out of open stock, cleared from Bond or on first direct importation, from this Colony to any other Colony or Territory in the Union for consumption therein, shall within 24 hours forward a form of Notice of such goods to the Controller of Customs, Cape Town, and shall also without delay forward a form of Advice to the Consignee in the Colony or Territory to which the goods may be removed for consumption.

3. Every person without exception, who may sell, supply or despatch any goods or articles the growth, produce or manufacture of this Colony (including any animals bred in the Colony but not including flour, wheaten or wheaten meal and pollard manufactured in the Union from other than South African wheat) shall within twenty-four hours forward a form of Declaration of such goods, etc., to the Controller of Customs, Cape Town, and shall also without delay forward a duplicate of such Declaration (distinctly marked Duplicate) to the Consignee in the Colony or Territory to which the goods may be removed for consumption.

4. All quantities are to be given nett on the Notice and Advice Forms and the values given on the Notice form are to be original values at which the goods were entered for duty at the Customs on first importation into the Union and not the selling prices of the goods. (As an erroneous impression prevails that the values shown may be disclosed to the purchaser or consignees, it is here explained that the Notices are treated by the Customs as entirely confidential, and that the values need not be shown on the Advice to Consignee).

5. All quantities are to be given nett on the Declaration Form, and the values given are to be the current selling value at the place where the goods were purchased and despatched from. As the values given will be the selling value to the consignee, the Declaration Form should practically be a copy of the invoice rendered by the consignor to the consignee.

6. When goods are forwarded in Bond, they should not be shown on any of the above named forms, but it should be stated on the parcels ticket, way-bill, invoice or forwarding note as the case may be, that they are so forwarded.

7. When goods are forwarded by rail to an inland railway terminus in this Colony to be from there conveyed by wagon to a destination outside this Colony, but within the Union, the Agent at such inland railway terminus shall be deemed to be the Consignor and shall furnish the above forms of Notice and Advice or Declaration according as the goods are imported or Colonial produce or manufacture. The Notice or one copy of the Declaration as the case may be must be forwarded within twenty-four hours of the despatch of the goods to the Controller of Customs, Cape Town, and the Advice or Declaration as the case may be must be handed to the *carrier* to be *by him* conveyed to the consignee, and *not* despatched *by post*. Under the Regulations the police are authorised to demand from any carrier the production of either of these forms, and should he be unable to produce them the goods will be liable to seizure.

8. When goods that are being despatched may have been imported from beyond the Union directly for removal to any other part of the Union, or are cleared from Bond, the particulars of the contents, values, etc., given on the Notice will, of course, correspond with such particulars on the Customs Bill of Entry.

9. As regards imported goods that may be brought for consumption into any Colony or Territory from any other part of the Union, the regulations require that the consignee shall forward to the Principal Officer of Customs of his Government the Advice received from the Consignor of the goods, and likewise should any goods the produce or manufacture of any Colony or Territory in the Union be so removed the Consignee shall so forward the Declaration received from the Consignor. If no Advice or Declaration shall have been received, the Consignee must within twenty-four hours, report the arrival of such goods without such Advice or Declaration to the Principal Officer of Customs of his Government.

10. Spirits and Tobacco in its various forms of non-Union manufacture and spirits distilled from the produce of and in the Union imported into this Colony from other places in the Union are not to be delivered without special instructions from the Customs.

11. It frequently happens that the declaration on the forms bear only the signature of the clerk who makes it, without disclosing the name of the firm supplying them, and frequently also, the name of the Agent to whom the goods are sent to be forwarded is given instead of that of the true consignee, whereby considerable confusion is caused and a proper check on the due supply of documents is rendered impossible. It is therefore necessary that the name of the real consignor and of the real consignee must in future be properly shown in every case on the above mentioned documents.

12. Consignors are not to include, on *one* Advice or Declaration form goods for which *more than one* Notice or Declaration has been supplied and vice versa, which renders a proper check on the supply of the documents impracticable, and a separate Advice or Declaration must be supplied to the consignee, corresponding in every item with each separate Notice supplied to this Department and vice versa.

13. Under the former Customs Union Regulations it was permissible to persons who frequently sent small parcels by post, or otherwise, and who gave an undertaking in writing, to supply monthly a Scheduled Notice setting forth the nett quantities and original values of all goods forwarded to be relieved from supplying separate forms for each individual parcel. Under the present Customs Union this will not be allowed, and they must in every case supply the proper forms and in case of goods sent by Parcels' Post the Post Office Form D. must be used.

14. Under the Customs Union Laws in force within the Union, non-compliance with the Regulations is punishable by the imposition of a fine not exceeding £300, with or without imprisonment, and all goods removed contrary to the Regulations are liable to forfeiture together with the vehicles and cattle employed.

15. These penalties will in future be rigidly enforced throughout the Union whenever the Notices, and Advices, and Declaration Forms are not forwarded as above indicated, and all imported goods and goods and articles the manufacture or produce of the Union coming to hand in any of the above-mentioned Colonies or Territories without Advices or Declarations will be seized by the Authorities.

16. These instructions do not apply to any goods imported from places beyond the limits of the Customs Union (such as Northern Rhodesia and German South West Africa) upon which the duties provided for by the Customs Union Tariff are to be paid and collected.

17. The full text of the Customs Union Regulations may be procured on application at any Custom House in the Colony.

N.B. The forms of Notice A, Advice B, and Declaration C, are obtainable at the office of any Civil Commissioner, Magistrate or Landrost, and at any Railway Station or Custom House, and the Post Office Form D at any Post Office.

A. H. WILSHERE,
Controller of Customs.

Each Lot will be put up at the upset price fixed, and the highest bidder who shall have offered not less than such upset price shall be declared the purchaser, and every such purchaser shall have the option of paying either the whole or a part of the purchase money on the day of sale: Provided

(i) That if no payment be made on the day of sale one-tenth of the purchase price shall be paid at six and one-tenth at twelve months from the day of sale.
(ii) That if less than one-tenth of the purchase price be paid on the day of sale, the balance of such one-tenth shall be paid at the expiration of six months, and the remaining one-tenth at the expiration of twelve months from the day of sale.
(iii) That if the amount paid on the day of sale be one-tenth of any sum between one-tenth and one-fifth of the purchase price, the balance of one-fifth of the purchase price shall be paid at the expiration of twelve months from the day of sale.
(iv) In cases where the purchase money is less than twenty-five pounds, the whole amount shall be paid in cash, or in equal instalments extending over a period of three years.

Interest on the instalments above mentioned shall be paid at the rate of four per centum per annum; and the payment of the instalments, together with the interest thereon, shall be secured on the day of sale by two good and sufficient sureties to the satisfaction of the Civil Commissioner, which sureties will bind themselves in regard to such payment as sureties *in solidum* and co-principal debtors, renouncing the exceptions of excussion and division.

If the purchaser or his sureties fail, or are unable to make the necessary payments of purchase money as above within the stipulated time, it shall be competent for the Government to cancel the sale, and all payments already made in respect of such sale shall be forfeited to the Government.

The expenses of Survey and of the Title Deed (viz., 12s. 3d.), shall be paid to the Civil Commissioner, or other duly authorised person in that behalf on the day of sale.

The purchaser shall be bound to pass a mortgage bond bearing interest at the rate of four per centum per annum in favour of the Government for four-fifths of the purchase price, unless he shall have paid on the day of sale more than one-fifth thereof, in which case the amount of the bond shall be for the balance of the purchase price, the purchaser having the right to pay off the bond or any portion thereof, not being less than fifty pounds at any time.

If the purchaser be desirous of holding the balance of the purchase money on mortgage as above, he will be required to pass the bond within thirteen (13) calendar months from the day of sale, failing which, a fine of one shilling will be imposed for every day allowed to pass beyond it, up to eighteen months from the date of sale, after which, should such failure still continue, the balance of the purchase

PROPOSED "KOMGHA MUNICIPALITY."

NOTICE.

IN terms of Section 9 of Act 45 of 1882, Notice is hereby given that at a Public Meeting of Householders and Registered Voters resident within the limits of the present Village Management Area of Komgha, held on 1st July, 1903, the following Petition to His Excellency the Governor was adopted unanimously, praying that the Area therein defined should be constituted a Municipality in terms of the said Act, of which Resolution due intimation is hereby made to all concerned.

Komgha, 8th July, 1903

Unto His Excellency Sir Walter Francis Hely-Hutchinson, K.G.C., K.C.M.G., Governor and Commander-in-Chief of His Majesty's Colony of the Cape of Good Hope, and of the Colonies and Dependencies thereof, &c., &c., &c.

The Humble Petition of the Undersigned sheweth :—

That your Petitioners are Registered Voters, not less than twenty-five in number, for the election of Members of Parliament, resident within the area of the proposed Municipality of Komgha, as after described.

That the town of Komgha is the seat of a Magistracy, and is the centre of extensive pastoral and agricultural enterprise and interests. It is in process of being connected with the rest of South Africa by Railway, and this fact, combined with rapid increase of population, and extension of business pursuits, renders the adoption of a Municipal form of government, in the interests of the public health, a matter of urgent necessity.

That your Petitioners desire that Your Excellency should declare the town of Komgha a Municipality under the provisions of the "Municipal Act of 1882," and assign the name of "Komgha Municipality" to such Municipality, the area of which will be the limits contained within the following boundaries, which are identical with those now under the control of the Komgha Village Management Board, as defined in Government Proclamation No. 131 of 1903, viz. :—"From the South-Eastern Beacon of the Komgha Commonage, common to Farms No. 223, No. 225, and 257, as shown on plan 1932°°, filed in the Surveyor-General's Office; thence along the boundaries of the following Farms, so as to exclude them from the area, No. 257, No. 260, No. 278, No. 217, to the Great Kei Road; thence along the Great Kei Road to its junction with the North-Western Boundary of Komgha Commonage; thence along the boundaries of the following Farms, so as to exclude them from the area, Farm No. 218 and Farm No 223, to the Southern Beacon common to Komgha Commonage, being the Beacon first named."

That your Petitioners desire generally to exercise, when found necessary, the entire powers conferred on Municipal Authorities under said "Municipal Act of 1882"; and, specifically, that said proposed Municipality be governed by a Council composed of a Mayor and five Councillors; that it be vested with powers of entering into contracts, and of borrowing money for the purpose of, and subject to the provisions of the said "Municipal Act of 1882"; also power to hold Municipal lands and to apply to Your Excellency, in writing, for consent to dispose of, or alienate, or permit to be built upon, enclosed, or cultivated any part or portion of the Commonage pasture lands of the Municipality, or any other lands which shall be vested in the said Council; to appoint Officers to assist in the execution of the Act, and to pay them such salaries as the Council may determine, and to suspend and dismiss such Officers; to frame Bye-laws and Regulations as provided in Section 109 of the said Act; to make valuations, and to make, levy, and recover rates upon all rateable property within the Municipality.

Your Petitioners humbly pray that Your Excellency in your discretion will be pleased to grant the prayer of this Petition, or such part or parts thereof as to Your Excellency may seem just and meet in the premises.

And your Petitioners, as in duty bound, will every pray.

W. H. SWAN,

A. C. SEALE,

H. V. BROWN,

A. D. CAMPBELL,

And 24 other Registered Voters resident with proposed Municipal Area.

1. Any claimholder marking or allowing to be marked on his pegs an incorrect number of claims held, shall be liable, on conviction, to a penalty not exceeding Five Pounds for the first offence and Ten Pounds for any subsequent offence.

2. All pegs (*i.e.*, Beacons) shall be respected, and any person altering or removing any pegs or Beacons shall be liable, on conviction, to a penalty of Five Pounds for the first offence and Ten Pounds for the second or any subsequent offence; or in default of payment, to imprisonment, with or without hard labour, for any period not exceeding three months.

3. All abandoned shafts shall be filled in or rendered safe under a penalty of Five Pounds for each offence.

4. In the event of any dispute between Claim-holders in any Alluvial Digging as to the ownership of any claim or claims, or as to the boundaries of their respective claims, it shall be lawful for the Inspector of Claims or his Assistant, upon the application of either of the parties to such dispute, to serve, or cause to be served, an interdict on either or both such parties to cease all work in the disputed claim or claims until such time as the same may be dealt with under the provisions of Section 122 of Act No. 11 of 1899; and any person who shall disobey or disregard such interdict granted by the Inspector or his Assistant, may by him be summoned before the Resident Magistrate of the District, and may upon conviction be fined any sum not exceeding Twenty Pounds (£20) sterling for the first offence, and Thirty Pounds (£30) sterling for the second or any subsequent offence, or, in default of payment, to imprisonment, with or without hard labour, for any period not exceeding Three (3) Months.

5. Any person resisting or obstructing any Government Officer in the discharge of his duties, within any proclaimed area, or using abusive and insulting language towards such Officer in the discharge of his duties, shall, upon conviction, incur the penalties provided by Bye Law 4.

3. Nothing in this Act contained shall prejudice the right of any person to copy or represent any work in which there shall be no copyright, or to represent any scene or object, notwithstanding that there may be copyright in some representation of such scene or object.

4. It shall be lawful for the registered proprietor of copyright to assign his interest or any part thereof in writing, under his hand, duly witnessed by two witnesses; and on production of such assignment by or on behalf of the assignee, the Registrar shall make an entry in the Register of such assignment, and of the name and place of abode of the assignee thereof; and such assignment so entered shall be effectual in law to all intents and purposes whatsoever, without being subject to any stamp or duty.

7. If any person shall deem himself aggrieved by any entry made in the Register under cover of this Act, it shall be lawful for such person to apply by motion to the Court, or in vacation to a Judge thereof in chambers, for an Order that such entry may be expunged or varied; and thereupon such Court or Judge shall make such Order for expunging, varying or confirming such entry, either with or without costs, as to such Court or Judge shall seem just; and the Registrar shall, on the production to him of any such Order for expunging or varying any such entry, expunge or vary the same accordingly.

Every offender under this section shall be liable to an action for damages at the suit of the person aggrieved; and all such copies, engravings, imitations or altered works shall be forfeited to such person, or his assigns: Provided always that the provision of this section shall not apply unless the person whose name, initials or monogram shall be so fraudulently signed or affixed, or to whom such spurious or altered work shall be so fraudulently or falsely ascribed as aforesaid, shall have been living at, or within seven years next before, the time when the act complained of may have been committed.

16. No proprietor of copyright in a work of art, first produced in the Colony, shall be entitled to the benefit of this Act until he shall have registered his copyright, nor shall any prosecution or action be competent for anything done before registration.

If the purchaser be desirous of holding the balance of the purchase money on mortgage as above, he will be required to pass the bond within thirteen (13) calendar months from the day of sale, failing which, a fine of one shilling will be imposed for every day allowed to pass beyond it, up to eighteen months from the date of sale, after which, should such failure still continue, the balance of the purchase money, with interest thereon, and the amount of the fine, if any, so imposed, shall forthwith become due and payable, and shall be recoverable in any competent court of law without further notice, and if not paid within one month after the date of judgment, the sale shall become null and void, and payments already made shall be forfeited to the Government.

IN terms of Section 4, Act 26, of 1891, as re-enacted by Act No. 18 of 1897, it is hereby notified that the following pieces of Crown Land, situate in the Division of Gordonia will be offered for Lease, by Public Auction, in front of the Civil Commissioner's Office, at Upington, at 10 o'clock, a.m., on Saturday, 7th November, 1903, subject to the conditions and stipulations hereinafter contained, and further to such conditions as may be declared on the day of Sale.

The Land will be let on Lease for any term not less than one year and not exceeding five years, to the highest bidder.

The following are the Conditions of Lease:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties; provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.

2. The Government reserves the right of terminating the Lease should it be thought expedient to sell the land or other circumstances render it necessary or expedient at any time, at two months' notice; and in such case the proportion of paid rent for any unexpired portion of the current year shall be refunded to the Lessee.

3. Government Land Surveyors employed in the survey of Crown or other lands with their assistants and servants, shall have the right of access at any time to any part of the land leased for professional purposes, and the right of occuping any part of the land, and grazing and watering their cattle or horses on all pastures and at all waters.

6. The right of searching and mining for ores, metals, minerals, or precious stones, is reserved to the Government or to any person authorised by it, save in so far as such right may limit the rights and privileges of the said Lessee in respect of precious stones and minerals, in manner provided by any Act in that behalf.

7. The Government does not undertake to point out any beacons. The description of the Lot will be given on the day of Sale of the Leases, and the Lessee will thereupon be expected to find the extent leased by him.

8. The Lessee shall not be allowed to cut down, bark, or otherwise injure any trees or saplings on the land leased.

9. The Lessee shall not be entitled at the expiration or other termination of his Lease, to any compensation for improvements made during the term of the Lease, but they shall become the property of the Government.

10. The Lessee shall be required to keep all existing improvements on the land in good repair during the Lease, and to deliver up the same in good repair, but shall not be entitled to any compensation for the same.

11. The Lessee shall not transfer the Lease nor sublet the land or any portion of it, or any buildings or erections thereon, without the written sanction of the Government first obtained.

12. The Lessee shall wholly and absolutely forfeit his Lease upon the breach of any condition binding him.

13. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and, upon the recommendation of the Civil Commissioner, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive or to cancel the lease as may seem to it equitable under the circumstances.
